ROHIT
Frontend developer

SUMMARY

I'm a passionate and aspiring Frontend Developer skilled in HTML, CSS, JavaScript, ReactJS, and NextJS. I'm dedicated to building intuitive, user-friendly websites and delivering smooth, engaging web experiences. I'm also familiar with backend technologies like Node.js, Express.js, and MongoDB, enabling me to collaborate effectively across the full stack.

LANGUAGES

- ENGLISH
- HINDI

HOBBIES

- Movies
- Music
- Coding

PROJECTS

RentWheels- vehicle Rentle Website   **January 2025**

- Developed using HTML, CSS, JavaScript, React (Vite), Node.js, Express.js, and MongoDB
- Supports three roles: User, Vendor, and Admin
- Users can register, log in, book vehicles, and give feedback
- Vendors can manage their own vehicles
- Admins can manage users, vendors, and vehicles
- Implemented secure authentication and role-based access control
- Designed a responsive and user-friendly interface

Cloathiqs- A clothing WebApplication   **February 2024**

- Developed a basic dynamic Clothing web application **clothiqs.vercel.app** using ReactJs for Frontend.
- For Backend Node.js, Express.js and MongoDB using Mongoose.
- Implemented React Context API for efficient state management.
- Integrated basic login and Register functionality for user convenience.

BiteBuddy - A Food Web Application   **May 2024**

- Developed a basic dynamic food ordering website **bitebudy.vercel.app** using NextJS.
- For Backend Node.js, Express.js and MongoDB using Mongoose.
- Implemented the React Context API for efficient state management.
- Integrated a basic yet secure login and logout functionality.
- Seamlessly Used APIs for fetching and displaying real-time data.
